Marks of the Church of Tomorrow

September 27 – October 11

Presented by Father Greg

The church is undoubtedly changing. What characteristics will mark the church of tomorrow? Phyllis Tickle's ideas in *The Great Emergence* will be a point of departure for our conversation. What new characteristics will the church take on? What will we let go? Less Aristotelian, less certain, less literal and less creedal in basic makeup and nature? What would that look like?
