

How would you suggest St. Michael's use our space?	What do you care about most in our community? What issues or concerns would you like to see addressed?	What assets might you be willing to offer to help make this community better? (Assets include such things as time, particular skills or knowledge, volunteering, community engagement, investment... In other terms, what gifts do you feel you could bring to the table for the greater good of the community?)	Anything else you want to ask or share with St. Michael's?
This could be a great site for a senior center. As more adults in our community age, this will become a real need.	That Bon Air retains its character as a neighborhood that is inclusive and close-knit.	Volunteering could be possible as I plan to retire from teaching in the next year or two.	
I strongly believe that the church should continue to use the space for educational purposes. This could be a preschool or K-8 or even a middle school. In any case I would support a low cost private Christian school. STM School fills a need but I would like to see a high quality private school alternative to public schools that has a very low tuition (perhaps similar to Anna Julia Cooper). I would be willing to support such a school financially and as a volunteer.	Access to high quality Christian education for people of low to moderate incomes	As noted above I would be willing to financially support and volunteer at school.	
Affordable housing and community playground and garden	Adding to the affordable housing stock, creating a more walkable community with spaces to interact with neighbors.	I am very active in the schools and plan to run for school board and build a strong public school system for all.	In DC neighborhood parks were plentiful and I will never forget the days of gathering and chatting with neighbors. Bon Air needs a park and it would foster more community building.
Soccer fields and senior housing and a senior center for day activities	affordable senior housing and youth activities		
	Keeping the sense of small beautiful community	Volunteering	Don't change too much
Start with how much of it is wanted by Riverside School, They're right next door and would be hemmed in and not able to expand if the complete property were put to some other use. Since they're a school, would probably be able to use the buildings with less renovation than any other use. They are fulfilling a mission of helping children with needs that might not be met elsewhere, and so should tie in with the church's concern with doing good in the world.	Keeping Bon Air's neighborly and neighborhood feel, and its historic associations which gives our community a special identity and connectiveness.	Any history knowledge or research that might help. (I'm historian for the BAHS and co-author of a 1970s book on the history of Bon Air) Elizabeth Richardson	This line is defecDefective line.Parts of typing disappear. ive. It keeps making part of typing disappear
A park with walking trails, an exercise loop, and a playground would be wonderful for the Bon Air area.	Making it a community again. Life is so divisive now and we need spaces and places we can share to meet each other in person and get off the newsfeeds!	Volunteer time to help maintain the space.	PLEASE don't allow outside dark money to influence your decision how to use the space!
I strongly believe that the church should continue to use the space for educational purposes. This could be a preschool or K-8 or even a middle school. In any case I would support a low cost private Christian school. STM School fills a need but I would like to see a high quality private school alternative to public schools that has a very low tuition (perhaps similar to Anna Julia Cooper). I would be willing to support such a school financially and as a volunteer.	Access to high quality Christian education for people of low to moderate incomes	As noted above I would be willing to financially support and volunteer at school.	
For the community as a park like space.	That there is a place for everyone.	Time, labor.	I think the soccer field would make a perfect dog park!
Community park with lots of greenspace, playground, exercising equipment, multi generational use.	To have enough greenspace and playspaces for kids that are accessible to everyone in the community. To maintain old structures and not to erase them for new apartments or such!	Time	Please do not build apartments or store fronts in the space!

How would you suggest St. Michael's use our space?	What do you care about most in our community? What issues or concerns would you like to see addressed?	What assets might you be willing to offer to help make this community better? (Assets include such things as time, particular skills or knowledge, volunteering, community engagement, investment... In other terms, what gifts do you feel you could bring to the table for the greater good of the community?)	Anything else you want to ask or share with St. Michael's?
I answered this survey before so will not fill out all sections again except this one. I said I would like to see a park with walking trails, an exercise loop, and a playground. I forgot to add that it would be wonderful for the area to have a recreation center, like the Parks and Rec facility in Bensley, that can be used for programs, workshops, and classes. There is nothing like this available to the public in North Chesterfield. It is very needed and would be much appreciated!			
Public park or playground :)	We live in walking distance to St Michaels but on the other side of the railroad tracks. I'd like pedestrians and bike riders to feel safe coming from that direction - I think a park would engage and build community	Volunteer time on weekends	Would you be willing to have Crestwood Elementary use your property for two years while a new school is built?
I would love to see a park, especially I one that included community garden plots. Our yard is too shady to grow vegetables and I imagine others in the area face that issue. Community gardeners could donate excess harvest to a food bank maybe? Another wonderful thing would be a shelter for families in crisis, like they've just been evicted, etc.	The well-being of children and our environment. Making sure everyone has a safe, nurturing home. Protecting children and women from abuse.	Well, I have 3 young kids including one with severe disabilities so my time is tight. I do have a greenhouse I could donate to a community garden.	I think it's wonderful you want to use this land to help our wider community.
I hope they will be open to riverside's needs, otherwise I like the open space, could crestwood use it while they rebuild? preschool for pre-k? soup kitchen, substance abuse help, caritas, depends on your needs for \$\$\$	I love our community and how we take care of each other but wish more diversity of culture and race, also more green spaces/parks	need to think about it,	appreciate you all asking
Community oriented	RPS education, sustainable use of resources	HR advice; wish I had more time to volunteer	No thank you
I would love to see it used as a Christian-based daycare facility or a private school specializing in Kindergarten through 1st/3rd/or 5th to give children a play-based / nurturing environment where they can learn. This approach to learning is gaining more and more traction as a best practice to enhance learning abilities among children.	I love the traditional small-town feel of the community. The 'it takes a village' mentality. A strong family-oriented environment. Issues and concerns would be around ensuring we foster those values above through rehabilitation of older structures. I would want to see Bon Air enhance the charm of the area, rather than neglect it.	Many of the things mentioned above. This will be easier to do as my children get older and gain some independence.	
I would like to see the gym used for community exercise. Perhaps a literacy program in other space and assistance with income tax preparations.	The aging population in Bon Air and how that will impact our community. Affordable housing for those entering the work force and for young families. There is no real "community center" in Bon Air or meeting place.	I would be glad to volunteer my time. I worked for Social Services (Chesterfield-Colonial Heights DSS 9.5 years; Henrico DSS 5 years, Virginia State DSS 11.5 years and NYS 10 years) for 36 years in Child Welfare programs, Benefit programs, and Medicaid. The one thing I know, in addition to the above programs, is how to fill out a government application and I have always done my own income taxes.	
Would love to see something that benefits the community's families. Our kids need a place they can ride bikes or walk to. Like a park/recreation center.	Lack of park space, play space where kids can go on their own to meet friends and do things outside and even inside in foul weather. Would love a community center. As a member of BACA, the pool and tennis are great, but it offers no other (year-round) recreation.	Organization, help with social media, cleaning up grounds. That is, IF the property is being used to serve the community.	No
Support space of safety and unity	The youth	Support thru volunteering	Maybe seniors could be involved

	What do you care about most in our community? What issues or concerns would you like to see addressed?	What assets might you be willing to offer to help make this community better? (Assets include such things as time, particular skills or knowledge, volunteering, community engagement, investment... In other terms, what gifts do you feel you could bring to the table for the greater good of the community?)	Anything else you want to ask or share with St. Michael's?
<p>How would you suggest St. Michael's use our space?</p> <p>A partnership with Bon Air Juvenile Corrections facility to educate residents of the facility. Grant money may be available to aid with fiscal sustainability</p>	<p>Inequality in education</p>	<p>Organizing, Volunteer coordination, spreadsheets/data management</p>	
<p>I think the expansion of the Riverside School is a wonderful thing. As a parent of a two-year-old, I would selfishly love to see a new and more expansive playground on the property. I am open to many ideas, though!</p>	<p>Lately, I care most about making Bon Air a more walkable, connected community. I am VERY hopeful that the McRae Road sidewalk project will come to fruition, and we would love to have a playground or other space to walk to on the St. Michael's property. I also care about the history of Bon Air, which I find fascinating and unique. It would be great to honor that history in some way through the use of the space (especially with the old library and post office so closeby).</p>	<p>As a stay-at-home parent, I have some flexibility to volunteer or offer my time during the day, especially if I could bring my toddler. I'm a former English teacher and editor, so could help with writing or editing needed for a project. Finally, I have some access to a charitable trust that my family and I have used to support the Bon Air Historical Society, among other nonprofits, in the past. If the future of St. Michael's involves some kind of nonprofit, community project, we would certainly discuss supporting it financially!</p>	
<p>I would like to see it used for educational, club or community use. And o to bring together the Bon Air Community on a more regular basis. I feel St. Michael's school was such a big part of the community and it would be nice to see that space used to benefit the community learning. Could Chesterfield County leverage that space for Library Meeting AND class opportunities? Currently I don't take any classes that are listed as being offered by Chesterfield County because the locations are too far from me (midlothian branch, etc.). It would be GREAT if this could be an extension of the Bon Air Library or Chesterfield County. Another opportunity may be with UofR or VCU. Or maybe even the VMFA? Bon Air's history and culture is rich, and</p>	<p>I care about helping people in our community through education and support.</p>	<p>I would definitely participate in volunteer events or sign up for classes. I live very close by, and, because like I said most of the buildings/branches of chesterfield county are far away, I am unable to participate. We have such a rich history of community here in Bon Air, it would be so nice to leverage all that space to enhance that community.</p>	
<p>Reach out to growing school's who need a new space, convert some of the recently vacate space to be co-working space or rental space for events, create and host a pre-school program, or maybe work with BACA to see what if any space could be used to expand what they offer.</p>	<p>Finding ways for the community to work together for the betterment of all. In this divided political climate the church (fellow Episcopalian here) can be the light and guide in these important conversations.</p>	<p>I am a fundraising consultant and do work with the Episcopal Church Foundation through the country. I would be happy to be a part of this process both as a professional and potentially as a volunteer.</p>	<p>Just excited to have a chance to respond and that you are doing this important work.</p>
<p>Food truck court a la https://www.countyfareurham.com/</p>	<p>Lack of playground space, parks, and other community space for young families in Bon Air</p>	<p>Managing social media and digital outreach to RVA</p>	<p>Where else besides Perk do young families in Bon Air congregate?</p>
<p>It seems that the best use would be for the school campus to remain a school. If that is not possible, a park or other type of community-centered space would be nice.</p>	<p>I care that our community has opportunities to come together. I like that our neighborhood is family focused with a sense of history and character.</p>	<p>I volunteer for the Bon Air Historical Society and the Friends of Chesterfield County Public Library and could be willing to volunteer in other capacities if the fit is right.</p>	<p>No. Looking forward to charette process.</p>
<p>I would very much like for St. Michael's Church to work with Riverside School to make the space permanently available for the future expansion of Riverside. Our school has been in Bon Air for 45 years, and the space would allow us to remain in Bon Air as the school seeks to grow in its service of students with learning disabilities. I think that Riverside School and St. Michael's Church make wonderful partners, and I would like to see that grow and flourish into the future.</p>	<p>I have dedicated my life to the education of young people. As the head of school at Riverside, I am most concerned with addressing the needs of K-8 students with dyslexia and other language-based learning differences.</p>	<p>I believe that Riverside School is a gift to all of Richmond, and especially to its home in Bon Air.</p>	<p>Thank you for inviting me to the Charrette process this Saturday. I am looking forward to being part of your conversation.</p>
<p>I would love to see St. Michael's work with Riverside School to enhance the school's expansion.</p>	<p>Helping those in need</p>	<p>volunteering, community engagement</p>	<p>Thanks for being part of the community</p>
<p>Park with trails</p>	<p>Equality and healthcare</p>	<p>I could volunteer on weekends to help create/clean trails</p>	

How would you suggest St. Michael's use our space?	What do you care about most in our community? What issues or concerns would you like to see addressed?	What assets might you be willing to offer to help make this community better? (Assets include such things as time, particular skills or knowledge, volunteering, community engagement, investment... In other terms, what gifts do you feel you could bring to the table for the greater good of the community?)	Anything else you want to ask or share with St. Michael's?
Would hope the church considers working with Riverside School toward a long term plan for Riverside's further growth and development. Riverside could be much more than the excellent school it is today.	That the church is cautious toward commercial development. it's a very valuable piece of real estate. The pressure could be intense. May turn out the be the right thing to do for the church and the dioses.		
I would like to see St. Michael's use its space for educational purposes in keeping with the original mission that the church had for this space. St. Michael's and Riverside already enjoy a positive working relationship and I hope that can continue in a manner that will allow Riverside to continue its expansion.	I would like to see Bon Air retain its current character and personality and I want to see the St. Michael's property put to constructive use in keeping with the character of the community.	I am willing to volunteer my time to help.	
School	Care about maintaining since of community	Bonair is a lovely community for many churches and schools. I would like to see more cominity events festivals and charity events that all could participate in.	Would love to see the fields and beautiful campus used for Riverside school children and families
I would like to see Riverside School using a good deal of it - possibly all at some time in the future.	I live in Goochland County and really don't have a good feel for Bon Air community's needs.		
Correctly!	Neighbors.		In answer to "what is most important besides health family and work? He said "Christianity"
Ideal: educational campus, makes sense. Athletics if controlled.; Could serve as expansion space for Community Center.	Concerned agout Noise Level. Loud cars. Keep the community feel; sense of respect in neighborhood. Keep crime out. Concerned "certain groups" could be brought in without proper control	I do my part. I'm a quiet neighbor. I keep an eye on the property and alert folk if somethign is amiss. I love yard work adn could help. I am involved with Colonial Dance Club and Rennasance dance club and we could perform for the school maybe. I have writing skills and analytical skills.	(All this was interview:) Has lived on Hazen for 12 yrs.
